Pinardville Mobil
566 Mast Road
Goffstown, New Hampshire 03045

CERTIFIED MAIL (7099 3400 0003 0687 2592)
RETURN RECEIPT REQUESTED

LETTER OF DEFICIENCY
No. ARD 2002-011

Dear Mr. Pinard:

The New Hampshire Department of Environmental Services, Air Resources Division ("DES") conducted a file review of Pinardville Mobil ("Pinardville"), located at 566 Mast Road in Goffstown, New Hampshire, to evaluate compliance with NH Admin. Rules Env-A 100 *et seq.*, NH Rules Governing the Control of Air Pollution. The records indicate that you are the owner of Pinardville. The file review also indicates that Pinardville has not re-tested its Stage II vapor recovery equipment in accordance with Env-A 1205. DES personnel have contacted you by telephone several times to remind you that the certification of the Stage II vapor recovery equipment has expired and that the Stage II equipment must be re-tested.

As a result of the file review, this Letter of Deficiency ("LOD") is being sent to identify the following deficiencies:

- Env-A 1205.24(a)(2) Stage II Re-testing Requirements requires Pinardville to re-test the Stage II vapor recovery system within 90 days prior to the expiration date of the Certification of Compliance ("Certificate"). The Certificate expired on December 16, 2001. DES records show that, to date, Pinardville has not successfully passed a Stage II re-test.
2. Env-A 1205.28(b) Stage II Notification and Renewal Fees requires Pinardville to submit to DES a non-refundable renewal fee of \$200 on or before the expiration date of the Certificate. The Certificate expired on December 16, 2001. DES received the renewal fee and notification form from Pinardville on February 11, 2002.

DES believes that the above deficiency can be resolved by Pinardville taking the following actions:

- Within 15 days of issuance of this LOD, have the person responsible for the Stage II certification testing contact Donria Jones at (603) 271-5749 to arrange for a date and time for testing;
2. At least 5 working days prior to any proposed testing, submit to DES in writing a confirmation of the date and time agreed upon with DES that such testing will occur, and the name of the person who is responsible for such testing as required by Env-A 1205.23(b); and
3. Within 60 days of receipt of this LOD, complete a successful re-test of the Stage II vapor recovery equipment as required by Env-A 1205.24(a)(2).

Please address all information as follows:

Mr. Jack Glenn
NHDES Air Resources Division
Compliance Bureau
6 Hazen Drive
P.O. Box 95
Concord, NH 03302-0095

In the event that compliance is not achieved within the time periods indicated, DES may take further action against Pinardville including issuing an order requiring that the deficiencies be corrected, initiating an administrative fine proceeding, and/or referring this matter to the New Hampshire Department of Justice for imposition of civil and/or criminal penalties. If you have any questions regarding this matter, or require further information please contact Jack Glenn at (603) 271-6546 or Joseph Ritz at (603) 271-1391.

Sincerely,

Pamela G. Monroe
Compliance Bureau Administrator
Air Resources Division
